tendonopathy, left hip (flexion) with degenerative joint disease	0%

Your overall or combined rating is 80%. We do not add the individual percentages of each condition to determine your combined rating. We use a combined rating table that considers the effect from the most serious to the least serious conditions.

We have enclosed a copy of your Rating Decision for your review. It provides a detailed explanation of our decision, the evidence considered, and the reasons for our decision. Your Rating Decision and this letter constitute our decision based on your claim received on December 19, 2013. It represents all claims we understood to be specifically made, implied, or inferred in that claim.

We enclosed a VA Form 21-8764, "Disability Compensation Award Attachment-Important Information," which explains certain factors concerning your benefits.
